

## Important update of our vaccination and testing policy

### Standard requirements

(Excluding trips of 16 nights or more or trips in specific areas)

	Covid-19 vaccinations required		Covid-19 test recommended
	Fully vaccinated (a minimum of 14 days prior to travel)	Booster (a minimum of 7 days prior to travel)	(to be organised by the guest and taken in the 3 days before travelling to the embarkation terminal)
Guests aged 18 years and over	✓	✓	✓
Children aged 5-17 years who <b>are</b> fully vaccinated*	✓	✗	✓
Children aged 5-17 years who <b>are not</b> fully vaccinated	✗	✗	✓♦
Children aged 4 years and under	✗	✗	✗

**Guests 18 years** and older must provide proof of full vaccination protection against Covid-19 with an approved vaccine\* given at least 14 days prior to embarkation. If more than 270 days have passed since the full vaccination (date of vaccination), a booster vaccination is required. The 270 days are calculated back from the date of disembarkation. The booster vaccination must have been given at least seven days before embarkation.

♦**Guests 17 years old and younger** do not need to be vaccinated. However, guests aged 5-17 who are not fully vaccinated will be required to take a Covid 19 lateral flow/antigen test in the three days prior to or on the day of the ship's departure. For these guests, you will no longer be required to provide a test certificate, but you must be able to provide photo evidence of the negative test upon request. Guests will also be asked to confirm that they have tested negative as part of the health declaration prior to embarkation at the cruise terminal.

**Children up to and including 4 years** of age do not require vaccination or testing for embarkation.

If you have already received a booster vaccination, you meet our vaccination requirement regardless of the date of the booster vaccination. If you have not yet exceeded the 270-day period, please check whether booster vaccination is still an option for you. This will ensure that you meet the ever-changing requirements of the countries we visit. A second booster vaccination is not currently required.

\* The vaccine must be a 2-dose Covid 19 vaccine licensed by the Medicines and Healthcare products Regulatory Agency (MHRA), by the European Medicines Agency (EMA) or by the World Health Organization Emergency Use Listing (WHO EUL), or the 1-dose Covid 19 vaccine Janssen by Johnson & Johnson. Single or double vaccination of any other vaccine will not be accepted. Even if you are not yet past the 270-day booster period, please check to see if booster vaccination is an option for you. This will ensure that you meet the ever-changing requirements of the countries we visit.

### **Test provisions**

#### **(Excluding voyages of 16 nights or more or voyages in specific areas)**

All fully vaccinated guests aged five years and over are strongly advised to take a lateral flow/antigen test within three days prior to arrival at the embarkation terminal.

◆ Guests aged 5 to 17 who are not fully vaccinated must take a Covid 19 lateral flow/antigen test in the three days before or on the day your ship departs. For these guests, you will no longer be required to provide a test certificate, but you must be able to provide photo evidence of the negative test upon request. Guests will also be asked to confirm that a negative test has been carried out as part of the health declaration prior to embarkation at the cruise terminal.

Guests aged 4 years and under are exempt from the vaccination and testing requirement.

Please arrive at the "arrival time" indicated on your boarding pass. This is for the safety of all guests, crew and colleagues at the terminal and during embarkation. If you arrive early, you may be asked to leave the terminal area and return at the designated time.

**Cruises with additional requirements  
(Trips of 16 nights or more or trips in specific areas)**

	<b>Covid-19 vaccinations required</b>		<b>Covid-19 test required</b>
	<b>Fully vaccinated</b> (a minimum of 14 days prior to travel)	<b>Booster</b> (a minimum of 7 days prior to travel)	(2 days before travelling to the embarkation terminal)
Guests aged 18 years and over	✓	✓	✓
Children aged 5-17 years who <b>are</b> fully vaccinated*	✓	✗	✓
Children aged 5-11 years who <b>are not</b> fully vaccinated	✗	✗	✓♦
Children 4 years and under	✗	✗	✗

**Guests 12 years and older** must provide proof of full vaccination protection against Covid-19 with an approved vaccine\* given at least 14 days prior to embarkation.

**For guests 18 years of age or older**, if more than 270 days have passed since the full vaccination (date of vaccination), a booster vaccination is required. The 270 days are calculated back from the date of disembarkation. The booster vaccination must have been given at least seven days before embarkation.

♦**Guests under 12 years** of age who have not been vaccinated may be asked to take an additional test at the cruise terminal.

**Children up to and including 4 years of age** do not require vaccination or testing for embarkation.

If you have already received a booster vaccination, you will meet our vaccination requirement regardless of the date of the booster vaccination. If you have not yet exceeded the 270-day period, please check whether booster vaccination is still an option for you. This will ensure that you meet the ever-changing requirements of the countries we visit. A second booster vaccination is currently not required.

*\* The vaccine must be a 2-dose Covid 19 vaccine licensed by the Medicines and Healthcare products Regulatory Agency (MHRA), by the European Medicines Agency (EMA) or by the World Health Organisation Emergency Use Listing (WHO EUL), or the 1-dose Covid 19 vaccine Janssen by Johnson & Johnson. Single or double vaccination of any other vaccine will not be accepted. Even if you are not yet past the 270-day booster period, please check to see if booster vaccination is an option for you. This will ensure that you meet the ever-changing requirements of the countries we visit.*

## Test regulations

### (Trips of 16 nights or more or trips in specific areas)

All fully vaccinated guests **aged 5 years and over** must arrange for an official antigen test which will be carried out at the embarkation terminal two days prior to arrival.

This can be done anytime two days before or on the day of embarkation.

Guests must present their negative antigen or PCR test certificate at the embarkation terminal.

**Guests under 4 years of age** are exempt from the vaccination and testing requirement.

Pre-cruise testing for **unvaccinated guests between 5 and 11 years of age** embarking in **Canada**.

If you are travelling with unvaccinated children between the ages of 5 and 11, you must arrange for a **PCR test** to be conducted at the embarkation terminal two days prior to arrival.

You must present the certificate of the negative test at the ship terminal.

All unvaccinated guests aged 5 to 11 years must also take a free antigen test on arrival at the cruise terminal (in addition to their pre-cruise **PCR test**).

Pre-cruise testing for **unvaccinated guests ages 5 to 11** who are embarking in the **U.S.**

All unvaccinated guests ages 5 to 11 must take a free antigen test upon arrival at the cruise terminal (in addition to their pre-cruise antigen test).

Please arrive at the 'arrival time' stated on your boarding pass. This keeps our terminal and embarkation procedures safe for all our guests, crew and colleagues. If you arrive earlier you may be asked to leave the terminal area and return at the allocated time.

Your boarding pass, Covid-19 test results and vaccination statuses will be checked for all guests – please help us to make the process as speedy as possible by having all your paperwork and any digital documents ready.
